

Cummins QSB6.7 Marine Engine Zinc Anodes

The Cummins QSB6.7 Marine Engine has an anode configuration different than other QSB engines. According to our customers, this new engine model requires the following zinc anodes:

- | | | |
|-------|---|-----------------------|
| Qty 1 | E-1 Engine Zinc Anode – 3/8 NPT x 2" | [Heat Exchanger] |
| Qty 2 | E-2 Engine Zinc Anode – 1/2 NPT x 2" | [After Cooler] |
| Qty 1 | E-0B Engine Zinc Anode – 1/4 NPT x 3/4" | [Transmission Cooler] |
